To whom it may concern,

Cyndan's "Cleans All" is our most valuable cleaning agent we use to date. In our workshop we often have the need to clean plastic photocopier covers which have been in very harsh environments of coal dust and dirt. With one application of a diluted "Cleans All" solution we simply spray on the plastic covers leave for 10 seconds then wipe off the dust and dirty. We have tried other more toxic cleaning agents and we have found that Cyndan's "Cleans All" does a much better job with no fuss and non of the hazards which come with some cleaning agents.
