

AEROSOL DISPENSER POD

Computerised Aerosol Dispenser

Cyndan Aerosol Dispenser Pod is a fully programmable Computerised Aerosol Dispenser. Designed for commercial use, the Aerosol Dispenser Pod is designed for use as with Cyndan 250mL aerosol products such as: Sentinel Insect repellent, Scentsations fragranced odour neutralisers ideal for "aroma" marketing.

The Aerosol Dispenser Pod is fully programmable to suit any environment including cafes, retail outlets, offices, schools, warehouses, stables, garbage rooms, hallways, storerooms, hotels and many more. It's attractive design means it blends into the background and customers won't even know it's there.

The Aerosol Dispenser Pod uses a solenoid valve to dispense a micro fine spray mist. This mist stays airborne longer and is therefore more effective than regular dispensers.

The Aerosol Dispenser Pod uniquely dispenses in 2 days what a normal aerosol dispenses in 5 seconds offering an economical and effective solution. See 'Sentinel & Scentsations' Data Sheets for relevant information.

- Designed for commercial use
- Computerised Aerosol Dispenser Pod
- Fully programmable to suit any environment.
- Inbuilt light sensor detects whether it is day or night to allow for programming day and night modes.
- Programmable to dispense 20mg-100mg of Product
- Programmable intervals from 30secs - 30min.
- For use with a 250mL Cyndan aerosol.
- Uses 3 AA Batteries (included)
- 2 Year Warranty
