ALGAE DIED B

142.5g/L QUATERNARY AMMONIUM COMPOUND
FOR KILLING ALGAE AND BLACK SPOT

Algae Died B is used to control algae and black spot in swimming and therapeutic pools and air conditioning waters. Algae Died B will control algae and mould growth on surfaces such as tiles, bricks, concrete, fibro, artificial grasses and coatings. Algae Died B is also effective in the control of such growth in situations as per the directions for use table.

DIRECTIONS:

SITUATION	PESTS CONTROLLED	RATE	HOW TO APPLY
Therapeutic and spa pools.	Algae	Initial Treatment: 200ml per 10,000L water. Preventative Maintenance Treatment (weekly to monthly): 200ml per 10,000L water.	Use in conjunction with chlorine treatment
