ANTI SLIP TREATMENT

Cyndan Anti Slip Treatment is the answer to the problem of slip injuries on wet, hard floor surfaces. Cyndan Anti Slip treatment is a chemical treatment that increases the co-efficient of friction and the safety of the surface when wet.

Ideal for tile applications in showers, bathrooms, laundries, commercial kitchens, pool surrounds, entrances to buildings, stairs, car washes, preparation and processing plants, hotels, hospitals, senior care facilities, fitness clubs, schools and many other commercial and industrial 'slippery when wet' hard floor areas.

DIRECTIONS:

Consult the CYNDAN Anti Slip Treatment application manual.

Note: It is recommended that CYNDAN Anti Slip treatment only be applied by trained professionals and onto suitable surfaces only. If applied incorrectly the surface may become damaged.

For on-going maintenance cleaning we recommend CYNDAN Power Kleen.

SAFETY: Avoid contact with eyes.

FIRST AID: If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
