AUTO BLUE

**AUTOMATIC DISPENSER FOR BLUE, FRAGRANCED BOWL WATER,
INDUSTRIAL/COMMERCIAL STRENGTH**

Cyndan Automatic Blue is an additive, chemically compounded for the safe dispensing of chemical fragrance and water colour clarifier, for all toilet systems.

Cyndan Automatic Blue can be added to all systems, i.e. septic, sewerage automatic and manual flushing toilets, no plumbing is necessary. The compounds are biodegradable and non-polluting. Non-corrosive and safe to all plumbing fixtures.

DIRECTIONS:

Remove cistern lid, remove metal cap and replace with blue dispensing cap. Place Cyndan Automatic Blue upright on the floor of the cistern away from the water in-let. Replace cistern lid. Product is ready for use. Avoid contact with clothes due to staining.

Due to regulations of different governing bodies the Automatic Blue dispensing jar must not be refilled with any other materials.

Cyndan Automatic Blue is formulated to be self-regulating. For the product to work correctly, the water level in the cistern must rise above and fall below the blue dispensing cap at all times.

SAFETY: Avoid contact with eyes.

FIRST AID: If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
