CLEANER HANDS

CONCENTRATED LIQUID SOAP AND SKIN CONDITIONER

CYNDAN* CLEANER HANDS will remove heavy soil, grease, oil, ink, carbon and dirt.

DIRECTIONS:

Dilute Cyndan Cleaner Hands with 4 parts of water and add to dispenser. Use small amounts for hand and body washing. Cyndan Cleaner Hands dispensers are available and are ideal for this application. Please ask your Cyndan representative for a demonstration.

If soiling of hands is heavy grease and oil, Cyndan Cleaner Hands may be diluted with less water therefore making it more concentrated. The use of Cleaner Hands with 2 parts of water right down to 1 part of water is very effective and safe. Cyndan Cleaner Hands can be used undiluted as a premier soft hand soap. Cyndan Cleaner Hands assists in the prevention of skin irritation as it contains no caustics or abrasives. Rinse with running water after use.

To condition, moisturise and protect skin, Cyndan Barrier Cream is a premium skin cream. Please consult your Cyndan representative for a demonstration.

SAFETY: Avoid contact with eyes.

FIRST AID: If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
