# DURAFILM

VERSATILE POLISH AND PROTECTOR FOR THE BEAUTIFICATION AND PROTECTION OF HARD SURFACES

Cyndan Durafilm is ideal on boats, cars, fixtures and fittings on buildings, furniture, vinyl bank counters, etc. Its complex blend of silicone oils will nourish and restore leather, vinyl, rubber, timber and chrome.

**DIRECTIONS:**

For best results car tyres should be washed with Cyndan Car Sleek prior to applying Durafilm. Once cleaned spray a liberal coat and allow to dry. Vinyl should be cleaned with Cyndan Cleans All prior to applying Cyndan Durafilm. For light protection on vinyl spray Cyndan Durafilm on a clean lint free rag and apply. If a high lustre is desired apply directly onto vinyl and gently work into surface using a soft lint free rag.

Cyndan Durafilm is water soluble and in some applications may be diluted with water resulting in greater economy.

**SAFETY:** Avoid contact with eyes.

**FIRST AID:** If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
