

CAUTION Keep out of reach of children
Read safety directions before opening

ECONO 301

Active Constituents 20 g/L Alkaline Salts
Water Soluble Industrial Solvent

CYNDAN* ECONO 301 is a totally biodegradable, non-flammable, water-soluble industrial solvent. There is no residue left when CYNDAN* ECONO 301 is used, thus cutting down on cleaning time. CYNDAN* ECONO 301 will remove greases, creosote, inks and oils from all surfaces.

DIRECTIONS:

DO NOT SWALLOW. The recommended strength is 1 part CYNDAN* ECONO 301 with 5 parts water. CYNDAN* ECONO 301 may be used stronger as required. Use a mop, spray, wipe or brush method and allow a few minutes for penetration. Then rinse with water.

A strong solution may cause etching on glass and aluminium surfaces. Test on an inconspicuous area first and rinse off quickly.

Rubber gloves should be used with prolonged use.

SAFETY: Avoid contact with eyes.

FIRST AID: If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
