ECONO 601

Three in One Bathroom and Toilet Cleaner, Deodorizer and Disinfectant
107.5g/L Phosphoric Acid
12.5g/L Quaternary Ammonium Compound

Cyndan* ECONO 601 has been formulated to clean, disinfect and deodorize in one chemical application. Cyndan* ECONO 601 will remove Uric Acid from tiles. It will clean and brighten stainless steel as well as killing unwanted bacteria, leaving a pleasant fragrance which will mask undesirable odours.

DIRECTIONS:

Cyndan* ECONO 601 can be sprayed on to the area to be cleaned using a Cyndan* 2.7 litre foam applicator. Contact your Cyndan* distributor for a demonstration. Use Cyndan* ECONO 601 neat in the applicator tank. Spray the surfaces to be cleaned and rinse well with water. Agitation is required if heavy soiling is apparent. Lightly soiled areas and areas cleaned regularly with Cyndan* ECONO 601 can be cleaned with a weaker dilution. Effective rinsing is required after every application.

SAFETY: Avoid contact with eyes.

FIRST AID: If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
