ECONO EXCELL

40g/L POTASSIUM HYDROXIDE

UN 1760 HAZCHEM CODE 2X PACKAGING GROUP II

HEAVY DUTY TRANSPORT WASH

CYNDAN* ECONO EXCELL is suitable for cleaning in all transport and fleet situations. It is a water soluble, biodegradable concentrated cleaner that requires dilution prior to use. It is suitable to be used as a chassis wash, a wash to remove the most ingrained dirt from trailers and vinyl curtains. It will remove road and diesel grime from most surfaces.

DIRECTIONS:

Dilute 1 part CYNDAN* ECONO EXCELL with up to 100 parts water and spray onto the surface to be cleaned. Agitate, then rinse the cleaned surface with hot or cold water. It can be diluted in a bucket of water (30mls per 10 litres) and sponged onto the surface to be cleaned. Rinse with hot or cold water. For best results it is recommended that you do not let the detergent dry on the cleaned surface prior to rinsing. CYNDAN* recommends, as with all cleaning chemicals, that a test be carried out on an inconspicuous area to test the surface compatibility.

SAFETY: Corrosive. Avoid contact with eyes and skin. Wear protective clothing, gloves and eye protection.

FIRST AID: If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes. If skin contact occurs, remove contaminated clothing and rinse for 15 minutes with soap and water. Ensure clothing is washed thoroughly before using again.
