# FIRE RETARDANT LIQUID

SINGLE COMPONENT WATERBASED ACRYLIC FIRE RETARDANT TREATMENT FOR TIMBER

This product when dry is impervious to water and will not discolour the timber. It has excellent resistance to dirt pick up. Passes Australian and New Zealand standard AS/NZS 3837 for performance specification for the definition of a Fire Retardant as specified in clause 1.5.6 of the Australian Standard 3959, construction of buildings in bushfire prone areas 1999. The product has not been subjected to weathering procedures Australian Standard ASTM D2898 method B as specified in Clause 1.5.6 of the Australian Standard AS3959. Therefore the product must be overcoated with a suitable paint which would be compatible with this waterbased acrylic treatment to provide UV and weather protection.

## **DIRECTIONS:**

**SURFACE PREPARATION:** Ensure all surface preparation and repairs are carried out and that the surface is clean and dry, free from dust, oil, grease and flaking paint. Masking of adjacent surfaces is prerequisite for spray applications.

**APPLICATION:** MIX THOROUGHLY BEFORE USE, THIS IS ESSENTIAL. THE PRODUCT MUST BE THOROUGHLY MIXED AS YOU WOULD WITH A PAINT. Apply by roller, brush or spray application to a suitably prepared surface. The porosity of the surface dictates the number of coats required and the actual coverage. The recommendation is one coat at approximately 6 to 9 square metres per litre. Minimum 2 coats. The second coat must be applied before the first coat is dry. After drying the product must be overcoated.

**DRYING TIME:** Drying time is dependant upon the conditions however CYNDAN\* FIRE RETARDANT LIQUID will be touch dry within 2 hours. Depending on conditions CYNDAN\* FIRE RETARDANT LIQUID will be fully dried between 4 to 7 hours.

**CLEAN UP:** Clean all tools and equipment at the end of each days work with clean water and a detergent such as CYNDAN\* SQUEAKY CLEAN

**SAFETY:** Avoid contact with eyes.

**FIRST AID:** If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
