INSAKILL (WATER BASED)

READY TO USE NON RESIDUAL INSECTICIDE

Controls flying insects such as mosquitoes, flies, moths and crawling insects including cockroaches, silverfish, fleas and ants.

DIRECTIONS:

SITUATION	INSECTS CONTROLLED	RATE	CRITICAL COMMENTS
Industrial and commercial premises	Flying insects including mosquitoes, flies and moths	0.1mL/m ³	READY TO USE SPRAY. DO NOT DILUTE. Spray several short bursts into the air in the direction of insects.
	Crawling insects including cockroaches, silverfish, fleas, ants	25mL/m ²	To flush out and kill crawling insects, spray into cracks and crevices wherever insects lurk. Apply spray direct to insects where seen.

This product is a non-residual, ready to use insecticide that kills insects by direct contact. This product should not be sprayed directly onto food preparation surfaces and should such surfaces be accidentally sprayed, wash thoroughly with soap and water. After use, wash and rinse spray applicator thoroughly. Avoid direct contact with indoor and outdoor plants. Dangerous to fish. Remove or cover fish tanks before use. DO NOT contaminate streams, rivers or waterways with the chemical or used container.

SAFETY: Avoid contact with eyes.

FIRST AID: If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
