Cyndan* **K.C.C**
KITCHEN CLEANING CONCENTRATE
250 g/L SODIUM HYDROXIDE

CORROSIVE LIQUID N.O.S.*
UN 1780

An intelligent kitchen system saving space, reducing product numbers and cost with no loss of quality. This remarkable formulation replaces three commercial kitchen products with one.

AS AN AUTOMATIC DISHWASHING DETERGENT
Take 5 litres of Cyndan* K.C.C and add it to a 20 litre drum and fill the drum with water. Label the drum "Automatic Dishwashing Detergent K.C.C" with the label supplied by your Cyndan* representative. Use this product with the dishwashing machine by connecting it to the dosing machine feeder tube.

AS AN OVEN AND GRILL PLATE CLEANER
Take 4 litres of Cyndan* K.C.C and add it to a 25 litre drum and fill the drum with water. Label this drum "Oven and Grill Plate Cleaner K.C.C" with the label supplied by your Cyndan* representative. Use this product as directed on the label.

AS A HEAVY DUTY DEGREASER
Take 4 litres of Cyndan* K.C.C and add it to a 25 litre drum and fill the drum with water. Label this drum "Heavy Duty Degreaser K.C.C". With the label supplied by your Cyndan* representative. Use this product as directed on the label.

CAUTION:
Do not use on aluminum filters and equipment etc.

SAFETY DIRECTIONS:
Corrosive. May produce severe burns. Attacks skin and eyes. Wear eye protection when mixing or using. Wear protective gloves when mixing or using.

FIRST AID:
If swallowed, do NOT induce vomiting. For advice, contact a Poisons Information Centre (phone 13 11 26 from anywhere in Australia) or a doctor at once. If in eyes, hold eyelids apart and flush eye continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or at least 15 minutes. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

Cyndan* **Oven & Grill Plate Cleaner K.C.C**

40g/L SODIUM HYDROXIDE

CORROSIVE LIQUID N.O.S.*
UN 1780

DIRECTIONS:
GRILL PLATES: For badly soiled grill plates pour onto a plate preheated to approximately 170 degrees C. Rinse off by flooding with water until the water remains clean. Remove water and lightly oil the plate for further use.
OVENS: Using a sprayer with a straight jet or a dish and rag, apply liberal amounts of this product to a preheated oven of 190 degree C. Spray on walls and doors then rinse off with a clean wet cloth. If a dish and rag method is employed always wear gloves.

CAUTION:
Do not use on aluminum filters and equipment etc.

SAFETY DIRECTIONS:
Corrosive. May produce severe burns. Attacks skin and eyes. Wear eye protection when mixing or using. Wear protective gloves when mixing or using.

FIRST AID:
If swallowed, do NOT induce vomiting. For advice, contact a Poisons Information Centre (phone 13 11 26 from anywhere in Australia) or a doctor at once. If in eyes, hold eyelids apart and flush eye continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or at least 15 minutes. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.
