

MEDIPURE HANDS

Perfume Free, Ethanol Based Cleaning Rub

Cyndan Medipure Hands is a gel formulation which allows the cleaning of hands without the need for drying, rinsing or wiping. Cyndan Medipure Hands is fortified with denatured ethanol which is a proven germ killer and bacteria fighter. It provides for the hygienic cleansing of hands and should be used after all work operations where hands have been contaminated with unhealthy material. This product is ideal for plumbers, animal handlers, sewerage plant and waste product operators, food process workers and cleaners. As the product is odourless, it is also ideal for those preparing food products

DIRECTIONS FOR USE:

Apply a small amount of Cyndan Medipure Hands to the hands and rub in until absorbed into the skin. Wait 10 seconds for evaporation then return to normal duties.
