Biodegradable

Non Flammable

Economical

Water Soluble
Solvent

Water Soluble Industrial Solvent

Cyndan Power Kleen is an industrial solvent which dissolves and emulsifies grease, oil, creosote and heavy industrial soiling, replacing the need for flammable and hazardous petroleum based solvents.

Cyndan Power Kleen leaves the surface free from chemical residue and prepared for coating or painting if desired. Safe on plastics, masonry, timber, metals and many other resilient surfaces.

It contains no aromatic solvents, thus reducing the risks associated with toxic fumes. It is also non flammable which means it can be used on hot surfaces with complete safety. It is highly effective in cleaning greasy surfaces in commercial kitchens and for cleaning kitchen rangehood filters at a 9:1 dilution.

Cyndan Power Kleen also contains an added rust preventative, to help minimise any costly complications of corrosion.

Also available in a low odour formulation. Please ask your Cyndan Representative about **Cyndan Power Solve**.

Available as **ECONO 301** for added economy.

Industries for use:

- ✓ Mining / Transport
- ✓ Aviation
- ✓ Shipping
- ✓ Automotive
- ✓ Manufacturing
- ✓ Commercial Kitchens

Suitable for use in food preparation areas.

AQIS Approved & Registered for use in registered export meat establishments.

Available as **ECONO 301**
