

CAUTION Keep out of reach of children
Read safety directions before opening

SQUEAKY CLEAN LIQUID

Detergent Concentrate

DIRECTIONS:

Cyndan* Squeaky Clean Liquid is a concentrate and may be diluted with two parts of water.
(e.g. Take one part of Cyndan* Squeaky Clean Liquid and add two more equal parts of water making three)

This means that one drum will make three drums of a very active detergent.

In the case where diluting is not convenient use small amounts of concentrate per wash (i.e. 25mls to 10 litres of water).

Cyndan* Squeaky Clean Liquid is also recommended for cleaning laboratory and scientific glassware as it rinses streak free.
Rinse product contacting surfaces with potable water after use.

SAFETY: Avoid contact with eyes.

FIRST AID: If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
