Read safety directions before opening

STEAM MATE

LIQUID STEAM CLEANING ADDITIVE

DIRECTIONS:

Cyndan Steam Mate is a liquid concentrate which may be used in steam or cold pressure washers of all makes.

If the machine to be used requires the liquid to be diluted and added to a reservoir, simply do this by mixing 1L of Cyndan Steam Mate with 20L of water and filling the reservoir with this mixture.

In the case where Cyndan Steam Mate is added directly to the machine and diluted via flow of water or steam, adjust the feed control to a dilution of 20 parts water per 1 part Steam Mate.

Stronger or weaker dilutions may be used, depending on the degree of degreasing required.

SAFETY: Avoid contact with eyes.

FIRST AID: If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
