Ultimate Polyurethane Anti-Slip Protective Coating

UN 1263 HAZCHEM CODE 3Y PACKAGING GROUP III

Cyndan's Tuff Stuff is a single pack polyurethane anti-slip protective coating. It cures to form a tough abrasion resistant, flexible coating in an attractive textured finish. Tuff Stuff has excellent durability as it is heat, water, salt-water impact and chemical resistant (dilute acids and alkalines). Cyndan Tuff Stuff has been designed to provide a slip resistant floor and protective coating for foot and vehicle traffic.

### DIRECTIONS:

Stir thoroughly before starting and then intermittently, avoiding aeration. Apply by brush or roller in coats of approximately 500 microns thick (0.5mm) until desired thickness is achieved. It is important that product texturing is maintained with each coat. Spread onto surface as evenly as possible. Apply following coats at right angles to preceding cured coats as soon as possible and best within 24 hours.

**SAFETY:** Avoid contact with eyes.

**FIRST AID:** If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
