

CYNDAN\*

# U.B.C

The most effective and economical industrial cleanser on the market today.  
**BIODEGRADABLE**

## WATER MIXABLE ABSTERGENT

Cyndan\* U.B.C is one of the most remarkable formulations of the past two decades. A myriad of applications have emerged since its inception into the Cyndan\* range.

### GLUCONATE AMELIORATED

The chemical structure of a high concentration Sodium Hydroxide solution is normally accompanied by a number of applicational concerns, from operator safety to equipment deterioration. However, the introduction of our highly guarded gluconate to counter these concerns, and to enhance the effectiveness of the formulation is what allows for the wide and varied use of Cyndan\* U.B.C.

### APPLICATIONS

From vehicles in the road, rail, aviation and marine industries to equipment and plant maintenance in mining and manufacture, to general building maintenance, Cyndan\* U.B.C can be employed. U.B.C will degrease and clean masonry and timber. U.B.C will clean, degrease and deoxidize metals and coated surfaces.

### CHEMICAL POLISHING

At varying dilutions U.B.C will actually chemically polish oxidized metals and painted surfaces restoring them to an as new condition. This is ideal for items being prepared for resale. This chemical polishing is excellent for aluminium or stainless steel tanks and building fixtures. Appropriate surface compatibility testing and consultation with a Cyndan\* representative will determine the most effective and economical application rate.

This product is approved for use in registered export meat establishments.
