

# WASP ELIMINATOR

Kills Wasps & Eggs  
Instantly & Safely

Non-Flammable  
Formulation

Vortex Nozzle

Economical 500gm can

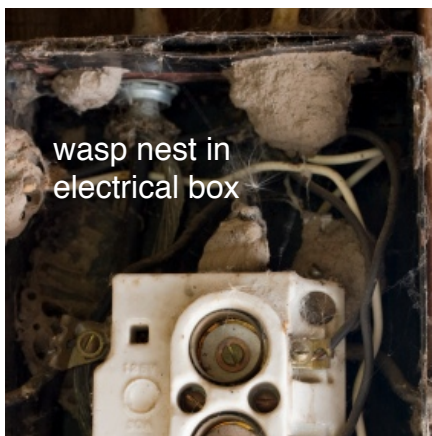

## Wasp Eliminator Aerosol

Cyndan Wasp Eliminator is an Australian made product that kills wasps and their eggs instantly and is suitable for indoor and outdoor control of wasps in domestic, commercial and industrial areas.

Cyndan has developed the new 'Vortex' Nozzle which ensures an improved droplet dispersion, whilst maintaining up to a seven metre spray distance. This allows the operator to be at a safe distance when eliminating the threat of wasps. The nozzle also prevents wastage of the product that occurs with other inferior nozzles due to the droplet size being too large and product falling to the ground.

Cyndan Wasp Eliminator has been reformulated and tested to an improved dielectric strength of 54.5 kV and its propellant is non-flammable. This means that the product is safer to use around electrical equipment such as power poles and electrical boxes.

It is approved and registered by the A.P.V.M.A. (Australian Pesticide & Veterinary Medicines Authority) and comes in an economical 500gm aerosol can.

### Features:

- ✓ Up to 7 metre spraying distance
- ✓ Improved Dielectric Strength of 54.5kV
- ✓ 'Vortex' nozzle for superior application.
