

A Wonder for every industry's degreasing needs...

Specially formulated degreasing solution which with the addition of Alcohol Ethoxylate actually thickens when added to water to allow the product to cling to vertical surfaces.

Cyndan* Wondersolve combines the power of a petroleum solvent with the economy of water dilution. The result of Cyndan*'s modern chemical technology brings this new solvent product which through the ethoxylate clinging action provides great retention time thus producing outstanding degreasing results.

- Dissolves tar, grease, road film, asphalt, soils and waxes
- Ideal for heavy vehicles and roadworking equipment
- The longer retention time provides thorough penetration and proficient cleaning
- Easy to apply by brush, mop or spray methods
- Can be diluted with up to 4 parts water for true economy.

Attention: - Peter Trojczak.

Dear Peter,

Just to let you know we are very pleased with "Wonder - Solve", which we are currently using to degrease motor vehicle engines and also on our garage floors.

Wonder - Solve removes the most difficult and thick grease, very easily, and we find this product very economical to use.

What we like most about the product is its economy and efficiency, we would highly recommend " WONDER - SOLVE " to anyone in the automotive industry.

Yours Faithfully

Bill Vass
