CITRUS OIL FORMULATION

BIODEGRADABLE

NATURALLY DERIVED

NON CORROSIVE

HEAVY DUTY DEGREASER

Natural based solvent

Cyndan Citrus Oil Formulation is a biodegradable compound consisting of d-limonene and modified coconut extracts. D-limonene is the major component in the oils of citrus fruits and is a powerful degreaser. It dissolves greases, fats, bitumens and oils. It may be sprayed onto equipment prior to contact to provide a release agent function to prevent adhesion of unwanted residue.

Citrus Oil Formulation contains no harmful acids or caustics and leaves a pleasant lingering orange citrus fragrance. It does not contain petroleum or chlorinated based solvents.

Ideal for waste water plumbing maintenance and grease traps. Use to remove inks from print rollers and presses, and soap scum from showers. Dissolves grease and oil in the automotive industries.

Cyndan Citrus Oil Formulation emulsifies with water, and is therefore water rinse-able. It is safe for use in the food processing industries or in commercial kitchens.

Disolves:

- ✓ Tar
- ✓ Asphalt
- ✓ Grease
- ✓ Oil
- ✓ Ink
- ✓ Wax
- ✓ Chewing gum

part of the CYNDAN Green Range

Suitable for use in food preparation areas.
